**Monitor and Control of Greenhouse Environment - GreenBee [Project Report Included]**

ajay_bhargav, Mon Aug 04 2008, 09:04 pm

Hello Students and Hobbyists,

Well I got this great gift from Amit Radhakrishnan, Poonam Bansal, Prabhat Kumar, Smitha P., students of Atria Institute of Technology, Bangalore.

So i thought you will all love it as a return gift from Rickey\'s World.

Comments from not only me but also from other members who helped Amit while he was working on this project. I must say its a very neatly built and presented project. I guess you all remember the screenshots i posted earlier in the forum. Well take another look at this.

You can download this project from 8051 Projects section, Zip file includes pdf which contains the project report, schematics and code. Please do not forget to comment on the project   Because students have worked hard to make it.
